

- 1) Lesson 2B.4, Example #2
- 2) Lesson 2B.4 (bottom of pg.1 notes, *i.e.*, the Note) and Lesson 2B.5, Example #2
- 3) Lesson 2B.4, Example #3
Lesson 2B.5, Example #2
- 4) Lesson 2B.5, Example #3
- 5) Lesson 2B.5, Example #4(a)
- 6) Lesson 2B.4 (top of pg. 1 of notes, *i.e.*, switching x and y in a table) and Lesson 2B.2, Example #1(b)
- 7) Lesson 2B.4, Example #1(a) (completing the square will not be required)
- 8) Lesson 2B.1, Example #2
- 9) Lesson 2B.2, Example #2 [but simpler – you will only have to calculate $(\pm\sqrt{x})^2$ instead of something like $(6 \pm \sqrt{9 - x})^2$]
